BIONIC®

- Unique concave carbide tip design, accelerates drilling speed, reduces wear and supports dust removal.
- Most rigid joints through copper-silver brazing. Carbide is totally embedded in both sides of the steel body. Super tough TWINMAX™ flute. Fastest and most efficient dust removal. Annealed, shot-peened chrome, nickel, molybdenum steel to prevent premature fatigue failures.
- Industrial finish.
- Bit diameters meet ANSI standard.

JET-HEAD®

- Jet-Head® carbide head for smooth and high performance drilling, with less vibration.
- Center point for easy start up.
- Large relief slots for most efficient dust removal.
- Bits provide for exact round holes.
- Bit diameters meet ANSI standards.
